# DWK Webinar Series: COVID-19 Impact on Construction Project and Capital Facilities Program Planning

## DWK EVENT

Webinar — May 26, 2020

### Construction in the COVID-19 ERA

The arrival of COVID-19 has affected school and community college districts in significant ways. DWK's three-part webinar series investigates how COVID-19 affects different aspects of district construction projects – from planning to related property, environmental, and regulatory issues to contractor claims. Join our panelists as they discuss the impacts of COVID-19 and strategies for effectively resolving those impacts. Register for one or all. Don't miss out!

### COVID-19 Impact on Construction Project and Capital Facilities Program Planning

This webinar will cover how COVID-19 is affecting important construction planning activities like building your team of key construction consultants (Architects, Construction Managers, Program Managers), and implementing various project delivery methods (Single-Prime/General Contractor, Multi-Prime, Lease-Leaseback, Design-Build). The panel will discuss the impacts of local county orders and social distancing requirements, and strategies for adapting district planning and procurement in a legally compliant and efficient way.

### Who Should Attend?

Superintendents; Presidents/Chancellors; Vice Presidents; Chief Business Officials/Chief Operations Officers/Assistant Superintendents, Business Services; General Counsel; Directors of Facilities; and Directors of Maintenance and Operations

### Questions?

If you have any questions or would like more information about this webinar series, please contact Emily McPeters at [emcpeters@nullDWKesq.com](mailto:emcpeters@nullDWKesq.com).
